Data Timelines

Care Setting	Provider	Data Set & Frequency
GP Data	• GP Data	• Weekly increments
Acute	<ul style="list-style-type: none"> • Chelsea and Westminster Hospital NHS Trust • London North West Healthcare NHS Trust • Hillingdon Hospitals NHS Foundation Trust • Imperial College Healthcare NHS Trust • West Middlesex University Hospital Trust • Royal Brompton & Harefield 	<ul style="list-style-type: none"> • SLAM – Monthly • SUS – Monthly • Receiving weekly A&E feed from Hillingdon Hospital
Out of Area Acute	• 18 Out-Of-Area Acute Providers	<ul style="list-style-type: none"> • SLAM – Monthly • SUS – Monthly
Community	<ul style="list-style-type: none"> • Central London Community Health (includes Community Independence Service) • Hounslow and Richmond Community Health • London North West Healthcare NHS Trust • Central & North West London NHS Foundation Trust 	• Monthly
Mental Health	<ul style="list-style-type: none"> • Central and North West London NHS Foundation Trust • West London Mental Health Trust 	• Monthly
Social Care	<ul style="list-style-type: none"> • Have established social care data feeds for: West London, Central London, Hammersmith & Fulham, Brent and Hounslow • Hillingdon and Ealing data coming soon 	• Monthly

Non GP Data Providers in the WSIC Dashboards

In Area Providers	
Central and North West London	Harness Care Co-operative Ltd
London NWL Healthcare	Kilburn Primary Care Co-operative
The Hillingdon Hospitals NHS Foundation Trust	London Borough of Hounslow
West London Mental Health Trust	Brent Local Authority
West Middlesex University Hospital	Westminster City Council
Imperial College Healthcare NHS Trust	Royal Borough of Kensington & Chelsea
Hounslow and Richmond Community Healthcare	London Borough of Hammersmith & Fulham
Central London Community Healthcare	London Borough of Ealing
Chelsea and Westminster Hospital NHS Foundation Trust	Harrow Council
Harrow Health CIC	Hillingdon Council
Kilburn Primary Care Co-operative	

Urgent Care Centre (UCC)	
Northwick Park Hospital UCC (NWLH)	St Mary's UCC
Partnership for Health	Mount Vernon Minor Injuries Unit
Chelsea and Westminster UCC	London Northwest Healthcare
THH UCC	Imperial College Healthcare NHS Trust
Care UK UCC (Ealing Hospital)	Chelsea and Westminster Hospital NHS Foundation Trust
Central Middlesex Hospital UCC (NWLH)	The Hillingdon Hospital NHS Foundation Trust UCC

Out of Area Providers	
Ashford and St Peter's Hospitals NHS Foundation Trust	Moorfields Eye Hospital NHS Foundation Trust
Barnet and Chase Farm Hospitals NHS Trust	North Middlesex University Hospital NHS Trust
East and North Hertfordshire NHS Trust	Royal Free London NHS Foundation Trust
Great Ormond Street Hospital NHS Foundation Trust	Royal National Orthopaedic Hospital NHS Trust
Guys and St Thomas' NHS Foundation Trust	Royal Surrey County Hospital NHS Foundation Trust
Heatherwood and Wexham Park Hospitals NHS Foundation Trust	St George's Healthcare NHS Trust
Homerton University Hospital NHS Foundation Trust	The Whittington Hospital NHS Trust
King's College Hospital NHS Foundation Trust	University College London Hospitals NHS Foundation Trust
Kingston Hospital NHS Foundation Trust	West Hertfordshire Hospitals NHS Trust

TPP SR Event

Field Index	FieldName	Description	Type	Size	LinkedTable	LinkedColumn
1	RowIdentifier	Link to equivalent rows in the daily delta	Numeric - Integer	8		
2	IDOrganisationVisibleTo	The unique identifier of the organisation able to see this data	Text - Variable	25		
3	DateEventRecorded	The date and time that the event was entered on to the system	Date and Time			
4	DateEvent	The date and time that the event occurred	Date and Time			
5	IDProfileEnteredBy	The unique identifier of the staff profile that recorded the event	Numeric - Integer	4	SRStaffMemberProfile	RowIdentifier
6	IDDoneBy	The unique identifier of the staff member that performed the event	Numeric - Integer	4	SRStaffMember	RowIdentifier
7	IDStaffMemberProfileRole	The unique identifier of the staff role under which this event was entered. Populated when a staff role is explicitly set against an event; a value of -1 indicates that the event was performed under the usual staff role of the profile.	Numeric - Integer	4	SRStaffMemberProfileRole	RowIdentifier
8	TextualEventDoneBy	The name of the staff profile who performed the event	Text - Variable	255		
9	IDOrganisationDoneAt	The unique identifier of the organisation at	Text - Variable	25		

		which the event was performed				
10	IDAuthorisedBy	The unique identifier code for the staff profile who authorised the consultation	Numeric - Integer	4		
11	IDProfileAuth orisedBy	The unique identifier code for the staff profile who authorised the consultation	Numeric - Integer	4	SRStaffMemb erProfile	RowIdentifier
12	ContactEvent Location	The location of contact	Text - Variable	100	SRConfigured ListOption	RowIdentifier
13	ContactMethod	The contact method (for example, telephone or face to face)	Text - Variable	100	SRConfigured ListOption	RowIdentifier
14	EventIncomplete	Defines whether the event has been marked as incomplete. This is used when staff members want to continue the event at a later time	Boolean			
15	ClinicalEvent	Defines whether the event is a clinical event or an admin event	Boolean			
16	IDReferralsIn	The unique identifier of the Referral In linked to this event	Numeric - Integer	4	SRReferralsIn	RowIdentifier
17	IDPatient	The unique identifier for the patient record	Numeric - Integer	4	SRPatient	RowIdentifier
18	IDOrganisatio n	The unique identifier of the organisation at which the data was entered	Text - Variable	25		

TPP SR Code

Field Index	FieldName	Description	Type	Size	LinkedTable	LinkedColumn
1	RowIdentifier	Link to equivalent rows in the daily delta	Numeric - Integer	8		
2	IDOrganisatio nVisibleTo	The unique identifier of the organisation able to see this data	Text - Variable	25		
3	DateEventRe corded	The date and time that the event was entered on to the system	Date and Time			
4	DateEvent	The date and time that the event occurred	Date and Time			
5	IDProfileEnter edBy	The unique identifier of the staff profile that recorded the event	Numeric - Integer	4	SRStaffMemb erProfile	RowIdentifier
6	IDDoneBy	The unique identifier of the staff member that performed the event	Numeric - Integer	4	SRStaffMemb er	RowIdentifier
7	TextualEvent DoneBy	The name of the staff member who performed	Text - Variable	255		

		the event				
8	IDOrganisationDoneAt	The unique identifier of the organisation at which the event was performed	Text - Variable	25		
9	CTV3Code	The CTV3 Read code for this entry. If the code starts with a ?Y? then this indicates that this is a local SystmOne code	Text - Variable	6		
10	CTV3Text	The textual description of the CTV3 Read code. Deprecated - Use SRCtv3.CTV3Text	Text - Variable	500		
11	NumericValue	The numeric value of this coded entry, if appropriate	Numeric - Real	4		
12	NumericUnit	The numeric unit of this coded entry, if appropriate	Text - Variable	75		
13	EpisodeType	The type of episode. This will either by new episode or ongoing episode	Text - Variable	15		
14	IDTemplate	A link to the RowIdentifier within SRTemplate	Numeric - Integer	4	SRTemplate	RowIdentifier
15	IDEvent	The unique identifier of the journal event under which this event was performed.	Numeric - Integer	8	SREvent	RowIdentifier
16	IDPatient	The unique identifier for the patient record	Numeric - Integer	4	SRPatient	RowIdentifier
17	IDReferralIn	The unique identifier of the Referral In linked to this event	Numeric - Integer	4	SRReferralIn	RowIdentifier
18	IDAppointment	The unique identifier of the Appointment linked to this event	Numeric - Integer	8	SRAppointment	RowIdentifier
19	IDVisit	The unique identifier of the visit linked to this event	Numeric - Integer	4	SRVisit	RowIdentifier
20	IDOrganisation	The unique identifier of the organisation at which the data was entered	Text - Variable	25		

TPP SR Patient

FieldIndex	FieldName	Description	Type	Size	LinkedTable	LinkedColumn
1	RowIdentifier	Link to equivalent rows in the daily delta	Numeric - Integer	255		
2	IDOrganisationVisibleTo	The unique identifier of the organisation able to see this data	Text - Variable	25		

3	Title	The title of the patient (for example, Mr or Mrs)	Text - Variable	50		
4	FirstName	The patient's first name	Text - Variable	50		
5	MiddleNames	The patient's middle name	Text - Variable	100		
6	Surname	The patient's surname	Text - Variable	50		
7	PreviousSurname	The patient's previous surname	Text - Variable	50		
8	NHSNumber	The patient's NHS number	Text - Variable	10		
9	DateBirth	The day, month and year that the patient was born	Date and Time			
10	DateDeath	The patient's date of death	Date and Time			
11	BirthPlace	The location where the patient was born	Text - Variable	255		
12	Gender	The patient's gender.	Text - Fixed	1		
13	SpeaksEnglish	Defines if the patient speaks English	Text - Variable	10		
14	EmailAddress	The patient's email address	Text - Variable	50		
15	TestPatient	Defines if this record is a test record or not	Boolean			
16	SSRef	This is the social service reference number which is the unique identifier between SystmOne and ContrOCC. This is only relevant at social care units.	Text - Variable	10		

TPP SR Patient Address History

Field Index	FieldName	Description	Type	Size	LinkedTable	LinkedColumn
1	RowIdentifier	Link to equivalent rows in the daily delta	Numeric - Integer	8		
2	IDOrganisationVisibleTo	The unique identifier of the organisation able to see this data	Text - Variable	25		
3	DateEventRecorded	The date and time that the event was entered on to the system	Date and Time			
4	DateEvent	The date and time that the event occurred	Date and Time			
5	IDProfileEnteredBy	The unique identifier of the staff profile that recorded the event	Numeric - Integer	4	SRStaffMemberProfile	RowIdentifier
6	IDDoneBy	The unique identifier of the staff member that	Numeric - Integer	4	SRStaffMember	RowIdentifier

		performed the event				
7	TextualEvent DoneBy	The name of the staff member who performed the event	Text - Variable	255		
8	IDOrganisatio nDoneAt	The unique identifier of the organisation at which the event was performed	Text - Variable	25		
9	NameOfBuildi ng	The building name of the address	Text - Variable	200		
10	NumberOfBuil ding	The building number of the address	Text - Variable	200		
11	NameOfRoad	The road name of the address	Text - Variable	200		
12	NameOfLocal ity	The locality name of the address	Text - Variable	200		
13	NameOfTown	The town name of the address	Text - Variable	200		
14	NameOfCoun ty	The county name of the address	Text - Variable	200		
15	FullPostCode	The postcode of the address	Text - Variable	20		
16	DateTo	The date the patient left the address	Date and Time			
17	AddressType	The type of address. This will either be home, temporary, correspondence only or no fixed abode	Text - Variable	25		
18	IDEvent	The unique identifier of the journal event under which this event was performed.	Numeric - Integer	8	SREvent	RowIdentifier
19	IDPatient	The unique identifier for the patient record	Numeric - Integer	255	SRPatient	RowIdentifier

TPP SR Patient Registration

FieldIndex	FieldName	Description	Type	Size	LinkedTable	LinkedColumn
1	RowIdentifier	Link to equivalent rows in the daily delta	Numeric - Integer	4		
2	IDOrganisatio nVisibleTo	The unique identifier of the organisation able to see this data	Text - Variable	25		
3	DateEventRe corded	The date and time this entry was added to the system	Date and Time			
4	IDProfileEnter edBy	The unique identifier of the staff profile who created this entry	Numeric - Integer	4	SRStaffMember Profile	RowIdentifier
5	DateRegistrat ion	The patient's registration date	Date and Time			
6	DateDeRegist ration	The patient's de-registration date. This is the date that the patient left the organisation	Date and Time			
7	RegistrationSt	The patient's registration	Text -	100		

	atus	status. This will show, for example, if the patient is a GMS, applied or private patient at this organisation	Variable			
8	PreferredPharmacy	The patient's preferred pharmacy	Text - Variable	50		
9	IDPatient	The unique identifier for the patient record	Numeric - Integer	4	SRPatient	RowIdentifier
10	IDOrganisation	The unique identifier of the organisation at which the data was entered	Text - Variable	25		

TPP Primary Care Medication

FieldIndex	FieldName	Description	Type	Size	LinkedTable	LinkedColumn
1	RowIdentifier	Link to equivalent rows in the daily delta	Numeric - Integer	8		
2	IDOrganisationVisibleTo	The unique identifier of the organisation able to see this data	Text - Variable	25		
3	DateEventRecorded	The date and time that the event was entered on to the system	Date and Time			
4	DateEvent	The date and time that the event occurred	Date and Time			
5	IDProfileEnteredBy	The unique identifier of the staff profile who recorded the event	Numeric - Integer	4	SRStaffMember Profile	RowIdentifier
6	IDDoneBy	The unique identifier for the staff member who performed the event	Numeric - Integer	4	SRStaffMember	RowIdentifier
7	TextualEventDoneBy	The name of the staff member who performed the event	Text - Variable	255		
8	IDOrganisationDoneAt	The unique identifier of the organisation at which the event was performed	Text - Variable	25		
9	IDMultiLexProduct	The drug MultiLex product ID (used to link to SRMedicationReadCodeD details). Multilex are the provider of the drug list within SystmOne. MultiLex are the provider of the drug list within SystmOne	Numeric - Integer	4		
10	IDMultiLexPack	The drug MultiLex pack ID.	Numeric - Integer	4		
11	IDMultiLexDM	The MultiLex DMD ID	Text - Variable	50		
12	NameOfMedication	The name of the medication. If the medication has been entered as free text, then this will be prefixed with 'TEXTUAL DRUG :'	Text - Variable	500		

13	DateMedicationStart	The start date and time of the medication	Date and Time			
14	DateMedicationEnd	The end date and time of the medication	Date and Time			
15	MedicationDosage	The dosage recorded for the medication	Text - Variable	500		
16	MedicationQuantity	The number and units recorded for the medication (for example 28 tablet(s))	Text - Variable	500		
17	IsRepeatMedication	Defines whether the medication was issued from a repeat template or not	Boolean			
18	IsOtherMedication	Defines whether the medication has been recorded as an 'other' medication instead of an acute	Boolean			
19	IsDentalMedication	Defines whether the medication has been recorded as 'dental' medication instead of an acute	Boolean			
20	IsHospitalMedication	Defines whether the medication has been recorded as 'hospital' medication instead of an acute (at non-hospital prescribing units)	Boolean			
21	IDRepeatTemplate	The unique identifier of the Repeat Template the drug was prescribed from	Numeric - Integer	8	SRRepeatTemplate	RowIdentifier
22	IDReferralIn	The unique identifier of the Referral In linked to this event	Numeric - Integer	4	SRReferralIn	RowIdentifier
23	IDEvent	The unique identifier of the journal event under which this event was performed.	Numeric - Integer	8	SREvent	RowIdentifier
24	IDPatient	The unique identifier for the patient record	Numeric - Integer	4	SRPatient	RowIdentifier
25	IDOrganisation	The unique identifier of the organisation at which the data was entered	Text - Variable	25		

SR CTV3 to Version 2

FieldIndex	FieldName	Description	Type	Size	LinkedTable	LinkedColumn
1	RowIdentifier	The unique identifier	Numeric - Integer	4		
2	Ctv3Code	The CTV3 Read code	Text - Fixed	5		
3	Version2Code	The version 2 code	Text - Fixed	5		

TPP SR Medication Read Code Details

FieldIndex	FieldName	Description	Type	Size	LinkedTable	LinkedColumn
1	RowIdentifier	The unique identifier	Numeric - Integer	4		
2	IDMultiLexProduct	The drug MultiLex product ID. MultiLex are the provider of the drug list within SystmOne.	Numeric - Integer	4		
3	DrugReadCode	CTV3 Read code	Text - Fixed	5		
4	DrugReadCodeDesc	CTV3 Read code description	Text - Variable	1000		

SR Immunisation

FieldIndex	FieldName	Description	Type	Size	LinkedTable	LinkedColumn
1	RowIdentifier	Link to equivalent rows in the daily delta	Numeric - Integer	4		
2	IDOrganisationVisibleTo	The unique identifier of the organisation able to see this data	Text - Variable	25		
3	DateEventRecorded	The date and time that the event was entered on to the system	Date and Time			
4	DateEvent	The date and time that the event occurred	Date and Time			
5	IDProfileEnteredBy	The unique identifier of the staff profile that recorded the event	Numeric - Integer	4	SRStaffMember Profile	RowIdentifier
6	IDDoneBy	The unique identifier of the staff member that performed the event	Numeric - Integer	4	SRStaffMember	RowIdentifier
7	TextualEventDoneBy	The name of the staff member who performed the event	Text - Variable	255		
8	IDOrganisationDoneAt	The unique identifier of the organisation at which the event was performed	Text - Variable	25		
9	IDVaccination	Deprecated field, replaced by IDImmunisationContent	Numeric - Integer	4		
10	IDImmunisationContent	The unique identifier for the immunisation/vaccination	Numeric - Integer	4	SRImmunisation Content	RowIdentifier
11	Dose	The dosage recorded for the immunisation	Text - Variable	100		
12	Location	The site that the immunisation was given (for example, left deltoid)	Text - Variable	30		
13	Method	The method used for performing the immunisation (for example intradermal)	Text - Variable	25		

14	DateExpiry	The vaccination expiry date	Date and Time			
15	ImmsReadCode	The immunisation CTV3 Read code	Text - Variable	5		
16	VaccPart	The vaccination part number (for example, 1, 2 or 1st scheduled booster)	Text - Variable	25		
17	VaccBatchNumber	The vaccination batch number	Text - Variable	100		
18	VaccAreaCode	The vaccination area (for example Northern Europe)	Text - Variable	4		
19	VaccinationStatus	Defines whether the vaccination was given under GMS	Text - Variable	15		
20	IDEvent	The unique identifier of the journal event under which this event was performed.	Numeric - Integer	8	SREvent	RowIdentifier
21	IDPatient	The unique identifier for the patient record	Numeric - Integer	4	SRPatient	RowIdentifier
22	IDOrganisation	The unique identifier of the organisation at which the data was entered	Text - Variable	25		

SR Immunisation Content

FieldIndex	FieldName	Description	Type	Size	LinkedTable	LinkedColumn
1	RowIdentifier	Link to equivalent rows in the daily delta	Numeric - Integer	4		
2	Name	The name of the immunisation	Text - Variable	100		
3	Content	The contents of the immunisation	Text - Variable	255		
4	DateDeleted	The date the vaccination was deleted	Date and Time			

SR Mapping

FieldIndex	FieldName	Description	Type	Size	LinkedTable	LinkedColumn
1	RowIdentifier	The unique identifier of the row	Numeric - Integer	4		
2	IdMappingGroup	The unique ID of the mapping group that the mapping belongs to	Numeric - Integer	4	SRMappingGroup	RowIdentifier
3	Mapping	The textual description of the field	Text - Variable	150		

SR GP Practice Data

FieldIndex	FieldName	Description	Type	Size	LinkedTable	LinkedColumn
1	RowIdentifier	Link to the daily delta	Numeric - Integer	4		
2	IDOrganisationVisibleTo	The unique identifier of the organisation able to see this data	Text - Variable	25		
3	IDPractice	The unique identifier of the practice	Text - Variable	25		
4	IDProfileRegisteredGP	The unique identifier of the staff profile set as the registered GP	Numeric - Integer	4	SRStaffMember Profile	RowIdentifier
5	DateFrom	The date that care started at the GP organisation	Date			
6	DateTo	The date that care ended at the GP organisation	Date			
7	IDPatient	The unique identifier for the patient record	Numeric - Integer	4	SRPatient	RowIdentifier

SR Staff Member

FieldIndex	FieldName	Description	Type	Size	LinkedTable	LinkedColumn
1	RowIdentifier	Link to equivalent rows in the daily delta	Numeric - Integer	4		
2	StaffName	The name of the staff member	Text - Variable	255		
3	StaffUserName	The SystmOne user name of the staff member, used for logging onto the system	Text - Variable	255		
4	NationalIdType	The national ID type assigned to the staff member (for example, GMC number, NMC number or Pathology ID)	Text - Variable	255		
5	IDNational	The ODS code of the staff member, related to the NationalIdType	Text - Variable	255		
6	IDSmartCard	The smartcard number associated with the staff member	Text - Variable	15		
7	Obsolete	Indicates if the staff member has been obsoleted on the system.	Boolean			

SR Staff Member Profile

FieldIndex	FieldName	Description	Type	Size	LinkedTable	LinkedColumn
1	RowIdentifier	Link to equivalent rows in	Numeric -	4		

		the daily delta	Integer			
2	DateProfileCreated	The date that staff member profile was created at the organisation	Date and Time			
3	IdProfileCreatedBy	The unique identifier of the staff profile who created this entry	Numeric - Integer	4	SRStaffMember Profile	RowIdentifier
4	IDStaffMemberProfileRole	The unique identifier of the staff role this profile pertains to.	Numeric - Integer	4	SRStaffMember ProfileRole	RowIdentifier
5	StaffRole	A description of the staff role (for example, general medical practitioner)	Text - Variable	200		
6	DateEmploymentStart	The date the staff member started	Date and Time			
7	DateEmploymentEnd	The date the staff member was archived	Date and Time			
8	PPAID	The PPA ID of the staff member	Text - Variable	50		
9	GPLocalCode	The GP local code for the HA recorded in GPLocalCodeHA	Text - Variable	255		
10	IDStaffMember	The unique identifier of the staff member this profile pertains to.	Numeric - Integer	4	SRStaffMember	RowIdentifier
11	IDOrganisation	The unique identifier of the organisation at which the data was entered	Text - Variable	25		
12	GmpID	The GMP ID associated with this staff member profile	Text - Variable	160		

SR Patient Relationship

FieldIndex	FieldName	Description	Type	Size	LinkedTable	LinkedColumn
1	RowIdentifier	Link to equivalent rows in the daily delta	Numeric - Integer	4		
2	IDOrganisationVisibleTo	The unique identifier of the organisation able to see this data	Text - Variable	25		
3	DateEventRecorded	The date and time that the event was entered on to the system	Date and Time			
4	DateEvent	The date and time that the event occurred	Date and Time			
5	IDProfileEnteredBy	The unique identifier of the staff profile that recorded the event	Numeric - Integer	4	SRStaffMember Profile	RowIdentifier
6	IDDoneBy	The unique identifier of the staff member that performed the event	Numeric - Integer	4	SRStaffMember	RowIdentifier
7	TextualEventDoneBy	The name of the staff member who performed the event	Text - Variable	255		
8	IDOrganisatio	The unique identifier of the	Text -	25		

	nDoneAt	organisation at which the event was performed	Variable			
9	DateEnded	The date and time that the relationship was ended	Date and Time			
10	RelationshipType	The relationship type (for example husband or key worker)	Text - Variable	255		
11	PersonalGuardianOrProxy	Defines whether the relationship is a personal relationship, guardian or proxy	Text - Variable	8		
12	NextOfKin	Defines if this is a next of kin relationship	Boolean			
13	CaresForPatient	Defines whether the relation cares for the patient	Boolean			
14	PrincipalCarerForPatient	Defines whether the relation is the principal carer for the patient	Boolean			
15	KeyHolder	Defines whether the relation is the key holder	Boolean			
16	HasParentalResponsibility	Defines whether the relation has parental responsibility	Boolean			
17	FinancialRepresentative	Defines whether the relation is the financial representative	Boolean			
18	CallCentreCallBackConsent	Defines whether the relation has call centre call back consent	Boolean			
19	CopyCorrespondence	Defines whether the user has selected to copy correspondence when creating the relationship	Boolean			
20	ContactOrder	The contact order assigned to this relationship to determine whom should be contacted first	Numeric - Integer	1		
21	ContactMethod	The contact method for the relation. This will either be letter, visit, telephone, email, minicom, telephone contact by proxy, sign language or no telephone contact	Text - Variable	50		
22	CommunicationFormat	The communication format for this relation.	Text - Variable	25		
23	InterpreterRequired	Determines whether an interpreter is required for this relation	Boolean			
24	IDRelationshipWithPatient	Deprecated field, replaced by IDPatientRelationshipWith	Numeric - Integer	255		
25	IDPatientRelationshipWith	The unique identifier of the patient the relationship is with	Numeric - Integer	255	SRPatient	RowIdentifier
26	CodeRelationshipWithUser	The ODS code for the staff member the relationship is with	Text - Variable	50		

27	Relationship WithName	The name of the person the relationship is with	Text - Variable	255		
28	Relationship WithDateOfBirth	The date of birth of the person the relationship is with	Date and Time			
29	Relationship WithHouseName	The house name part of the address of the person the relationship is with	Text - Variable	100		
30	Relationship WithHouseNumber	The house number part of the address of the person the relationship is with	Text - Variable	50		
31	Relationship WithRoad	The road part of the address of the person the relationship is with	Text - Variable	70		
32	Relationship WithLocality	The locality part of the address of the person the relationship is with	Text - Variable	70		
33	Relationship WithPostTown	The post town part of the address of the person the relationship is with	Text - Variable	70		
34	Relationship WithCounty	The county part of the address of the person the relationship is with	Text - Variable	70		
35	Relationship WithPostCode	The post code of the person the relationship is with	Text - Variable	10		
36	Relationship WithTelephone	The telephone number of the person the relationship is with	Text - Variable	100		
37	Relationship WithWorkTelephone	The work telephone number of the person the relationship is with	Text - Variable	255		
38	Relationship WithMobileTelephone	The mobile telephone number of the person the relationship is with	Text - Variable	100		
39	Relationship WithFax	The fax number of the person the relationship is with	Text - Variable	255		
40	Relationship WithEmailAddress	The email address of the person the relationship is with	Text - Variable	50		
41	Relationship WithSex	The sex of the relation	Text - Fixed	1		
42	Relationship WithSpokenLanguage	The CTV3 Read code recorded against this relationship	Text - Fixed	5		
43	Relationship WithOrganisation	The organisation name where the relationship is recorded against a SystmOne user	Text - Variable	255		
44	IDEvent	The unique identifier of the journal event under which this event was performed.	Numeric - Integer	8	SREvent	RowIdentifier
45	IDPatient	The unique identifier for the patient record	Numeric - Integer	4	SRPatient	RowIdentifier
46	IDOrganisation	The unique identifier of the organisation at which the data was entered	Text - Variable	25
